The International Association of Public Health Logisticians (IAPHL) is dedicated to improving public health supply chain management (SCM) and commodity security by promoting the professional development of public health logisticians. The association supports logisticians worldwide by providing a community of practice, where members can network, exchange ideas, and improve their professional skills.

Good day All,

My name is Uche Okafor, a public health pharmacist with specialty on health commodity logistics management here in Nigeria.

I am seeking your kind assistance on getting a project topic for my MPH program.

Please I would appreciate topics that are focused toward studies on HIV/AIDS service provision, health system strengthening, government participation/ownership, health commodity security or on occupational
health or any other good but achievable one within the time line.

Your assistance would be appreciated with highest regards.

Thanks and may God bless.

Uchenna Okafor (PharmD)
Supply Chain Specialist
