Moderated Discussions

You are here: IAPHL > Moderated Discussions

IAPHL hosts monthly facilitated discussions about health supply chain logistics on its listserv. Below are summaries of the discussions, with excerpted comments from IAPHL members.

Click on the sidebar to search for conversations by topic.

Mind the Gap: Linking Program and Supply Chain Data for the Immunization Supply Chain

June-July 2017: With this discussion topic, we wanted to explore options for triangulating data to better inform immunization service delivery planning from a program perspective and how to link it to coverage rates. This discussion sparked a lot of ideas about how to get more accurate target population numbers, data... Read more

Mentoring

You are here: IAPHL > Services > Mentoring

The goal of the IAPHL mentoring program is to give members opportunities to develop a partnership in which the mentor shares knowledge, skills, information, and perspective to nurture the professional growth of the mentee. This page will be updated as mentorships become available.

BENEFITS FOR THE MENTOR

- Renews enthusiasm for work
- Enhances coaching, counseling, listening, and modeling skills
- Refines personal leadership style
- Cultivates next generation of supply chain professionals

BENEFITS FOR THE MENTEE

- Advances professional development

Frequently asked questions about the IAPHL listserv

Why have I not been given my IAPHL membership certificate yet?

Membership certificates are issued once in two months so, for recently joined members, it will take that much time before you receive your certificate.

I am getting too many emails. How do I change my settings?

Log onto http://knowledge-gateway.org/iaphl with your username and password. Then select the "My Account" option in the top right corner. Click on Preferences, then select your email preference. Options include "Immediate," "Daily," "Weekly," "Monthly," and "None." If you choose daily, weekly, or monthly, you will receive one email per day/week/month with all IAPHL messages embedded. If you choose "None" you won't receive any emails, but you can visit Knowledge Gateway to view the messages whenever you wish.

I tried logging onto Knowledge Gateway, but I don't remember my username and/or password.

Your user name is your email address that you use to receive IAPHL messages. If you do not remember your password, click on "Set New Password" on the Knowledge
