

## IAPHL Scholarship Beneficiaries' Report

### Purpose

The purpose of this report is Health and Humanitarian Logistics conference roll-out.

### Background

The International Association of Public Health Logisticians is intended to improve public health supply chain management promoting health professionals (pharmacists and nurses) mostly to carry out logistics tasks. The association also supports logisticians worldwide by providing a forum for members to network, exchange ideas, and improve skills. It is in this regards that it supported six of its members to attend the Health and Humanitarian Logistics Conference hold in Rwanda/Kigali from 9<sup>th</sup> to 11<sup>th</sup> July 2019.

### Participation/Photographs

At Zipline station, official explaining how drones takeoff and land while distributing blood to health facilities in remote areas.

Attached is the video and explanation on how drones take off and land.

Not only blood but also some emergency health product that drones carry out
